

PINK

The recipe for this exquisite gin was inspired by natural wonders from Argentina, its ingredients being: delicious strawberries and peels of citrus fruits from Northern Argentina, Torrontés raisins from the Region Cuyo, juniper from Patagonia and toasted coriander from Pampa Humid.

Its ingredients are combined with pure, crystalline melt water of the glaciers of the Andes Mountains.

- Torrontés raisin
- Strawberries
- Fresh Patagonian juniper
- Coriander seeds toasted just right
- Fresh citrus peels from northeastern Argentina

Fresh natural botanicals are macerated in corn alcohol triple distilled before being distilled again in small German copper stills of 250 liters. The exquisite combination of these botanicals from the different cardinal points from Argentina gives Hilbing Gin Pink a delicate aroma and flavor and kind.

CONT.: 750/700cc.
